

### Mashpee Mitigation Planting Requirement Calculations

[for alterations within previously altered areas (devoid of natural vegetation, lawns, parking areas, pavement etc)]

A	B	C		D
Distance from most landward resource area (in feet)	Area of Proposed Activity (s.f)	Multiply Proposed Area (B) by a factor of		Required Mitigation
		Non-Riparian	Riparian	
0-10		5.00	6.00	
10-15		4.50	5.00	
15-20		4.00	4.25	
20-25		3.25	3.50	
25-30		2.75	3.00	
30-35		2.25	2.50	
35-40		1.75	2.00	
40-45		1.50	1.75	
45-50		1.25	1.50	
50-100		1.00	1.00	
Total Mitigation: Add Required Mitigation (Column D)				

Riparian Resource Areas are those bordering waterbodies such as BVWs and salt marshes

Non-Riparian Resource Areas include dunes, coastal banks and inland banks
